

Complete Vendor Management

As property management companies manage their portfolio, finding, vetting and managing third-party vendors becomes difficult. Chasing paperwork and manually tracking vendors is time-consuming and leads to serious risks. This is why many property managers are turning to NetVendor to manage their vendor networks, reduce vendor-related risk, and save hours of tedious tracking.

EXTREMELY USER-FRIENDLY

NetVendor is extremely user-friendly and intuitive. For example, if you know how to use Google, you can easily use the Vendor Search tool to find new vendors to hire.”

– **Megan Monk**, *In-house Counsel, Seldin, LLC*

ALLOWS US TO FOCUS ON OUR CORE JOBS

“NetVendor works independently and directly with our vendors and their insurance agents, which really makes things easy for us by removing the burden of vendor management and allowing us to focus on our core jobs.”

– **Friedman Real Estate**

SUPERIOR CUSTOMER SERVICE

“NetVendor provides superior customer service both to us and to our vendors. It’s very important to us that our vendors have a positive experience and we never receive any complaints from them about NetVendor, which also makes our jobs easier.”

– **Kalib Locke**

President/CEO Quantum Residential

COMPLETELY REMOVES THE BURDEN

“The best compliment I can give is that, once we set up our risk limits in the system, we stopped even having to think about NetVendor. It just works. NetVendor completely removes the burden of what we once did manually and allows us to focus on more strategic initiatives to grow and protect our business.”

– **Chris McGee** *Director of Risk Management Sparrow Partners*
