EASY TO USE
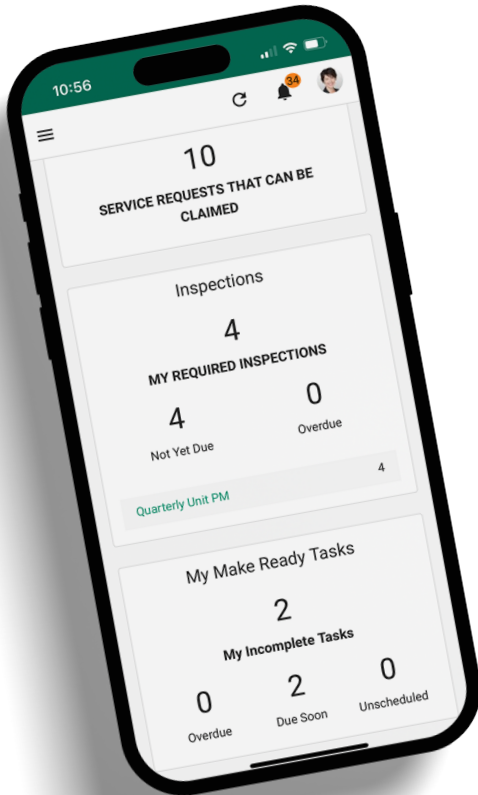

NetVendor Mobile Apps

Get them now on the Apple App or Google Play stores!

NetVendor Maintenance

Formerly ServusConnect Mobile

Introducing the NetVendor Maintenance Mobile App – your ultimate on-the-go property maintenance tool! Our mobile solution empowers your maintenance team to receive work orders directly on their devices, with no need for expensive software upgrades. Boost your apartment staff's efficiency instantly, while delivering faster service that residents will love.

With our app you can:

- Create and manage service requests
- Add repair notes and photos
- Receive instant push notifications
- Collaborate effortlessly with your team
- Schedule recurring and preventive tasks
- Easily oversee make-ready activities

NetVendor Inspections

Formerly ServusConnect Inspections

Empower your team to maximize their inspections with our user-friendly mobile app. Document everything quickly with just a few taps. Effortlessly mark locations on a floorplan, snap photos, and add notes with ease. And don't worry about Wi-Fi—NetVendor Inspections works offline, so you can continue even in tough-to-reach areas. Save your progress, and pick up right where you left off, even if you get pulled away for an emergency.

With our app you can:

- Standardize inspection forms
- Track and share findings
- Work off-line and monitor progress
- Customize with flexible templates
- And so much more!
